KIMLEY-HORN TO TAKE RESIDENCY AT FRISCO STATION

FRISCO, Texas (October 23, 2018) – Kimley-Horn, one of the nation’s premier planning and design consulting firms, has selected The Offices One at Frisco Station as the location for its new 32,349-square-foot office space. Kimley-Horn will occupy the second floor of the Class A office building located within Frisco Station, the 242-acre mixed-use project located at the northwest quadrant of the Dallas North Tollway and Warren Parkway.

“Since 1994, Kimley-Horn has had an office in the City of Frisco, providing a wide variety of planning and design consulting services within the City and across Collin, Denton, and Grayson Counties,” said Aaron Nathan, Texas Regional Leader, Kimley-Horn. “As recently shown in Money Magazine’s [“Best Places to Live in America,”](#) the growth in this area and the leadership from the City of Frisco has created a great place to live, and we have been delighted to help our clients, both public and private. We want to thank our clients for allowing us to serve them. We are particularly proud of our part in helping VanTrust, Hillwood, the Rudman Partnership, the Frisco EDC and the City of Frisco create a space to be a home to over 150 Kimley-Horn employees. Given our role in both Frisco Station and The Star in Frisco, it’s a bonus that we will be part of the fabric of the environment we helped to create.”

Employees of Kimley-Horn will have access to several high-end building amenities, including structured parking, a fitness center and a conference center. The Offices One at Frisco Station, which has been designed with future-proofing in mind, will have robust communications and power infrastructure that includes dual-power feeds and multiple fiber optic option providers. Employees also will benefit from the AT&T 5G Evolution wireless technology that is being integrated across Frisco Station’s parks, residential options, hospitality units and corporate

spaces. Frisco Station is one of the first developments in the nation being built from the ground up with wireless stealth micro cells, ultra-fast internet powered by AT&T FiberSM and robust Wi-Fi throughout all common areas.

“We are excited to welcome one of our partners who has worked diligently alongside us to help make Frisco Station a top destination for corporate expansions and relocations. With the addition of Kimley-Horn and several other recently announced tenants, The Offices One at Frisco Station is almost fully leased,” said Geoff Meyer, executive vice president of development for VanTrust Real Estate, developer of The Offices at Frisco Station.

The Offices One at Frisco Station is adjacent to the Dallas Cowboys’ world headquarters and is within walking distance to more than 50 retail, restaurant and entertainment options between The Hub at Frisco Station, the development’s planned entertainment district, and The Star. Station House, the first multi-family component to launch at the development, is now accepting leases for its luxury, urban-living units. Upon completion, Frisco Station will have more than 2,400 residential options available for individuals who want to be near Frisco Station’s employment opportunities and regional employers, along with dining, entertainment and wellness amenities and 32 acres of trails and park spaces.

Savills Studley represented Kimley-Horn in the transaction. Kimley-Horn’s new office space at The Offices One at Frisco Station sits directly next to the recently announced The Offices Two at Frisco Station, where Kimley-Horn is serving as the civil engineer of record.

Frisco Station is being developed by the Frisco Station Partnership, which is composed of The Rudman Partnership, Hillwood Properties and VanTrust Real Estate. Built on the principle that individuals want to be inspired and energized by the people and environment around them, Frisco Station’s designers are focused on creating a healthier, smarter and more creative experience for people who want to engage, innovate, learn and collaborate in their professional and personal lives.

About Kimley-Horn

Kimley-Horn is a privately-held, 3,500-person firm with more than 80 offices nationwide. It has been named 11 times as one of FORTUNE’s 100 Best Companies to Work For and is ranked among the top 20 design firms in the nation by Engineering News-Record. In 2018, it was also named one of FORTUNE’s Best Workplaces in Texas. Kimley-Horn provides planning and design consulting services related to transportation, aviation, the environment, development

services, transit, urban planning/landscape architecture, and water resources. The firm currently has open positions throughout Texas in Frisco, Dallas, Fort Worth, Houston, Austin, San Antonio, The Woodlands, Irving, Lubbock, McKinney, and Childress. BRIERLEY+PARTNERS MOVES GLOBAL HEADQUARTERS TO FRISCO STATION

FRISCO, Texas (Oct. 3, 2018) – Brierley+Partners, internationally recognized as the industry leader for creating lifetime loyalty for their customers’ brands, is moving its global headquarters to The Offices One at Frisco Station. Brierley+Partners will occupy a total of 56,703 square feet on the sixth and seventh floors of the Class A building located within Frisco Station, the 242-acre mixed-use project located at the northwest quadrant of the Dallas North Tollway and Warren Parkway.

The new Brierley+Partners’ global headquarters will provide ample space to support current and future growth, as well as facilitate collaboration with clients and between Brierley’s global offices in Los Angeles, Tokyo and London. The office will be designed with employee and client needs as the primary focus. Providing employees with natural light and outstanding views, as well as doubling the amount and variety of meeting spaces, employees will have access to building amenities, including a tenant lounge, fitness center, structured parking and a large conference center.

“We looked at and toured many properties around the Plano and Frisco area, but none matched the Frisco Station property. The location is incredible and situates our team at the center of a vibrant and growing area,” said Kats Murakami, President and CEO of Brierley+Partners. “With the proximity to The Star, restaurants, hotels, housing, entertainment and a park, Frisco Station was a no brainer. Our new location and this particular office will strengthen our recruitment efforts as the labor market is becoming increasingly competitive.”

As an organization centered around engagement and collaboration, Brierley+Partners gave employees the opportunity to provide feedback through company-wide surveys on preferred

amenities, location and building features. On Friday, September 21, Brierley+Partners hosted a reception for employees to preview the new office space, learn about the high-quality, on-site amenities available and enjoy the unobstructed views of downtown Dallas, Las Colinas, Lake Lewisville and Denton on the horizon.

“The Offices One at Frisco Station continues to be a highly desirable destination for corporations who want to be located in one of the most innovative corridors in the nation,” said Geoff Meyer, executive vice president of development for VanTrust Real Estate, developer of The Offices at Frisco Station. “The on-site emerging, automated transportation network coupled with recently announced 5G Evolution wireless technology will benefit Brierley+Partners by connecting them physically and digitally to the amenity-rich environment we are creating.”

Brierley+Partners and its employees will benefit from the AT&T 5G Evolution wireless technology that is being integrated across Frisco Station’s parks, residential options, hospitality units and corporate spaces. Featuring some of the latest integrated connectivity from AT&T, Frisco Station is one of the first developments in the nation being built from the ground up with wireless stealth micro cells, ultra-fast internet powered by AT&T FiberSM and robust Wi-Fi throughout all common areas. Through this technology, building residents will have access to the ultimate wireless experience throughout The Offices One at Frisco Station, across the 32 acres of trails and park spaces, residential and hospitality units.

Adjacent to the Dallas Cowboys’ world headquarters, The Offices One at Frisco Station is within walking distance to more than 50 retail, restaurant and entertainment options between The Hub at Frisco Station, the development’s planned entertainment district, and The Star. More than 2,400 urban living units will also be available for residents who want to be in close proximity to Frisco Station’s employment opportunities and regional employers, along with dining, entertainment and wellness amenities.

“Brierley+Partners is a venerable North Texas company that was seeking a vibrant, mixed-use environment to support its future growth, and Frisco Station provides this environment very well for them,” said Craig Wilson, executive managing director of Cushman & Wakefield.

Randy Cooper, Craig Wilson, Kate Sudol and Wills Bauer of Cushman & Wakefield represented Brierley+Partners, and Johnny Johnson, Chris Taylor and Clint Madison of Cushman & Wakefield represented VanTrust in the transaction.

Frisco Station is being developed by the Frisco Station Partnership, which is composed of The Rudman Partnership, Hillwood Properties and VanTrust Real Estate. Built on the principle that individuals want to be inspired and energized by the people and environment around them, Frisco Station's designers are focused on creating a healthier, smarter and more creative experience for people who want to engage, innovate, learn and collaborate in their professional and personal lives.

About Brierley+Partners

Brierley+Partners are global loyalty and CRM innovators. VANTRUST ANNOUNCES LAUNCH OF SECOND SPECULATIVE OFFICE BUILDING AT FRISCO STATION

FRISCO, Texas (September 18, 2018) – VanTrust Real Estate will develop The Offices Two at Frisco Station, a 210,000-square-foot, Class A speculative, office building at Frisco Station, the 242-acre mixed-use project located at the northwest quadrant of the Dallas North Tollway and Warren Parkway. The new building is the second of five planned office buildings for the office district at Frisco Station, which will total 5 million square feet of planned office space upon completion.

“There has been substantial corporate interest throughout Frisco, and we have witnessed first-hand the growing demand for high-quality office space in the North Platinum Corridor,” said Geoff Meyer, executive vice president of development for VanTrust Real Estate. “The Offices Two at Frisco Station is a continuation of our goal to provide efficient, highly amenitized office space to meet the needs of prospective clients who want to work in the heart of one of the most innovative and fastest growing corridors in the nation.”

Construction on the six-story, mid-rise office tower will begin in September 2018 and is slated for completion in September 2019. Building amenities will include structured parking, a fitness center, conference center and tenant lounge. The building, which has been designed with future-proofing in mind, will have robust communications and power infrastructure that includes dual-power feeds and multiple fiber optic option providers. As well, employees and employers in the building will benefit from the AT&T 5G Evolution wireless technology that is being integrated across Frisco Station’s parks, residential options, hospitality units and corporate spaces. Frisco Station is one of the first developments in the nation using the technology, built from the ground-

up, and the combination of wireless stealth micro cells, ultra-fast internet powered by AT&T FiberSM and robust Wi-Fi throughout all common areas will provide the ultimate wireless user experience for building residents.

The Offices Two at Frisco Station is adjacent to the Dallas Cowboys' world headquarters and is within walking distance to more than 50 retail, restaurant and entertainment options between The Hub at Frisco Station, the development's planned entertainment district, and The Star. Station House, the first multi-family component to launch at the development, is accepting leases for its luxury, urban-living units. Upon completion, Frisco Station will have more than 2,400 residential options available for individuals who want to be near Frisco Station's employment opportunities and regional employers, along with dining, entertainment and wellness amenities and 32 acres of trails and park spaces.

"Frisco Station is truly a unique destination that is bringing together all of the elements needed to create an innovative, engaging and collaborative environment," said Mike Berry, president of Hillwood, Frisco Station's master developer. "Being built from the ground up with 5G Evolution wireless technology from AT&T, combined with the office district coming online, residents moving into Station House, the lifestyle hospitality campus underway and the recent announcements of Uber Air and drive.ai operating on our property, Frisco Station is setting a new standard for urban developments."

The design team for The Offices Two at Frisco Station includes HKS, Inc., which has been selected as the project architect for the building, Manhattan Construction, which will serve as the design-build contractor, and Kimley Horn and Associates, which will serve as the civil engineer of record. The property will be marketed and leased by the Dallas/Fort Worth office of Cushman & Wakefield, under the leadership of Ran Holman, who serves as managing principal and DFW market leader.

The Offices Two at Frisco Station is located at the southwest corner of Cowboys Way and Gridiron Road. The project is the second offering of a total of 5 million square feet of planned office space for Frisco Station, which will include 1.5 million square feet of mid-rise office space and 2 million square feet for campus-style offices. It is anticipated that nearly 15,000 people will have daytime employment at Frisco Station.

FRISCO STATION AND AT&T TO CREATE 5G EVOLUTION CONNECTED COMMUNITY FROM THE GROUND UP

FRISCO, Texas (August 6, 2018) – Frisco Station will be one of the first connected communities in the nation built from the ground up with [5G Evolution](#) wireless technology from AT&T. Frisco Station is launching an enhanced wireless experience across its parks, residential options, hospitality units and corporate spaces.

Designed with future-proofing in mind, the 242-acre, mixed-use development will feature the latest integrated connectivity from AT&T, including wireless stealth micro cells, ultra-fast internet powered by AT&T FiberSM and robust Wi-Fi throughout all common areas. Frisco Station will have the necessary infrastructure to enable the future and create an ideal environment for people to innovate, engage and collaborate.

“Frisco Station understands the future belongs to the individual,” said Ed Balcerzak, SVP of AT&T Connected Communities. “With this development, we’re working together to give you more of your thing and connect you to the people, information and entertainment you care about.”

By investing in robust technology, Frisco Station provides the foundation required for new innovations to be launched, like Uber Air’s first Skyport and the recently announced drive.ai autonomous vehicle pilot program. The technology platform being integrated at Frisco Station enables these innovative transit solutions to develop stronger, faster, more reliable connections between devices and applications.

“Stations are places where people go to make connections. That’s why the Frisco Station Partnership chose AT&T as its partner to implement a platform that can support a connected community at every stage,” said Mike Berry, president of Hillwood, Frisco Station’s master developer. “We believe we are creating a high-tech environment, unlike anywhere else in the country, that has the potential to change the way people think about what’s possible in their day-to-day interactions with people and information.”

By proactively addressing current and future connectivity needs, Frisco Station will be prepared for greater reliance on smart devices and automated platforms for transportation, healthcare, entertainment and lifestyle advancements – connecting an anticipated 15,000-person daytime population, five million square feet of office and 2,400 urban living residents to and from one of the fastest growing areas in the country. Frisco Station’s master plan is built upon three-pillars designed to encourage smart, creative and healthy experiences. The development will promote activity, connectedness and individual well-being through its interwoven trails and 30 acres of programmable, interactive open spaces.

Frisco Station’s enhanced wireless technology is providing a platform to encourage connectivity between Frisco’s emerging corporate and entertainment destinations. Building a connected community from the ground up ensures that Frisco Station’s vision can be put into practice today and maximized well into the future.

FOR IMMEDIATE RELEASE

Hillwood Launches The Cadence at Frisco Station, A Class A Luxury Apartment Community

FRISCO, Texas (November 21, 2019) – Hillwood has launched the development of The Cadence at Frisco Station, a 322-unit luxury apartment home community in Frisco, Texas. The Cadence, which broke ground this Fall, is part of [Frisco Station](#), a 242-acre multi-use development at the northwest quadrant of the Dallas North Tollway and Warren Parkway. The Cadence follows Station House, which is now more than 95-percent occupied, and will provide Frisco Station with another residential living option in close proximity to the restaurant and entertainment amenities serving the growing corporate employment base in Frisco Station.

“Cadence continues Hillwood’s efforts to set the standard for luxury apartment home living in Frisco’s North Platinum Corridor,” said Mark McHenry, managing director of Hillwood Multifamily. “The Cadence refers to the rhythm of life and our intent to provide quality homes that are integrated with recreational and social spaces, near to workplaces, and connected to everything residents do. Tremendous job growth in the area is creating strong demand for new housing. The Cadence will offer residents convenient access to jobs at Frisco Station’s growing employment base in the Offices One and Two, major employers in nearby legacy West and other regional employment centers in the Highway 121 and North Dallas Tollway corridors.”

Designed by JHP Architecture/Urban Design, The Cadence will be a 5-story, urban-style community with a mix of one- and two-bedroom units, in addition to studio and townhome

Hillwood Launches The Cadence

offerings. Apartment home features will include spacious open island kitchens with granite countertops, exclusive custom cabinetry, large walk-in closets, designer plumbing and lighting fixtures, 10-foot ceilings, faux plank and tile flooring in living areas and bath, and luxurious cut pile berber in bedrooms.

Community spaces designed to facilitate resident engagement are also a central feature of Cadence. The community will provide a wide array of lifestyle amenities, including a resident lounge, co-working space, state-of-the-art fitness center with dry sauna, coffee and wine bars, a spacious outdoor courtyard with a resort-style pool and cabanas, bike storage and repair spaces, and pet washing facility.

Integrated with the latest in smart home technology, the community will feature the [Dwelo](#)-based proprietary system, which allows app-based control of locks, thermostats, lighting and entertainment. Advanced technology for high-speed wireless connectivity, leveraging AT&T 5G Evolution, will be in the public areas and throughout the Frisco Station development, and a linear park and trail system will provide connectivity to the regional hiking and biking trail system in Frisco and neighboring communities.

The Cadence is the second urban living apartment home community by Hillwood at Frisco Station, which will ultimately provide up to 2,400 residential apartment homes. The project is located within walking distance to Frisco Station's dining and entertainment "Hub," which is being programmed with a unique mix of food, beverage and entertainment destinations, and is walkable to the myriad of dining and entertainment venues at the adjacent Star in Frisco development.

The project is scheduled for preleasing in the summer of 2020, with first units coming online in early 2021 and full completion in late 2021.

Uniquely positioned in one of the most dynamic development corridors in North Texas, Frisco Station promotes the experiential convergence of smart, creative and healthy principles with a new approach to urban design. In addition to the urban living, restaurant and entertainment components, the master plan for Frisco Station includes more than five-million square feet of office and corporate campus development, 500,000 square feet of medical and wellness facilities, and open space/greenbelt amenities with programmed events and public activities. The highly publicized development will feature the first Skyport in Uber Air's network, showcasing a high-

Hillwood Launches The Cadence

tech, creative and innovative environment that fosters wellness and a sense of place, as well as stimulates inspiration and energy for residents, business and visitors alike.

VANTRUST ANNOUNCES THIRD CLASS A SPECULATIVE OFFICE BUILDING AT FRISCO STATION

FRISCO, Texas (January 28, 2020) –VanTrust Real Estate continues their expansion in Frisco, Texas with the development of The Offices Three at Frisco Station, a 210,000-square-foot, Class A speculative, office building. The new building marks the third office building for the office district at Frisco Station, the 242-acre mixed-use project located at the northwest quadrant of the Dallas North Tollway and Warren Parkway.

[Download renderings of The Offices Three here.](#)

“Frisco is the hottest market in North Texas and was America’s fastest-growing city in 2018,” said Bill Baumgardner, executive vice president, Dallas for VanTrust. “With the job growth and office demand in North Texas, the projections for leasing are excellent. Also, wellness and technology amenities in new, collaborative office spaces are key to companies’ talent acquisition and retention strategies, and this site will offer a premier environment for a healthy, smart and engaging work experience.”

Construction on the six-story, mid-rise office tower in the North Platinum Corridor will begin in January 2020 and is slated for completion in late 2021.

The Offices Three at Frisco Station will be located at the southeast corner of Cowboys Way and Hickman Road. The project is the third offering of a total of 5 million square feet of planned office space for Frisco Station, which will include 1.5 million square feet of mid-rise office space and 2 million square feet for campus-style offices. It is anticipated that nearly 15,000 people will have daytime employment at Frisco Station.

Future job growth in Frisco over the next ten years is predicted to be 55.7 percent, much higher than the U.S. average of 33.5 percent, according to Sperling's BestPlaces.net. From November 2018 to November 2019, the DFW area added more than 120,000 jobs, topping any U.S. metro area for employment growth.

The Offices One, which opened in December of 2017, is 98 percent leased. Tenants include Brierley+Partners, Fiserv, Equinix, Kimley Horn and Executive Workspace. The Offices Two shell building construction is almost complete and the leasing is already at 35 percent, with Keurig Dr Pepper as the largest tenant.

As with Offices Two, the design team for The Offices Three at Frisco Station includes HKS, Inc., which has been selected as the project architect for the building; Manhattan Construction, which will serve as the design-build contractor; and Kimley Horn and Associates, which will serve as the civil engineer of record. The property will be marketed and leased by the Dallas/Fort Worth office of Cushman & Wakefield.

Building amenities will include structured parking, a fitness center, conference center and tenant lounge. The building, which has been designed with future-proofing in mind, will have robust communications and power infrastructure that includes multiple fiber optic option providers.

Frisco Station is adjacent to the Dallas Cowboys' world headquarters and is within walking distance to more than 50 retail, restaurant and entertainment options between The Hub at Frisco Station, the development's planned entertainment district, and The Star. Station House, the first multi-family component to launch at the development, has 300 luxury, urban-living units and is 95 percent leased. Construction was just completed on SkyHouse, a 25-story luxury apartment high-rise, as construction then commenced this fall on The Cadence at Frisco Station, a 322-unit luxury apartment home community.

Upon completion, Frisco Station will have more than 2,400 residential options available for individuals who want to be near Frisco Station's employment opportunities and regional employers, along with dining, entertainment and wellness amenities and 32 acres of trails and park spaces.

About Frisco Station

[Frisco Station](#) is a globally-recognized, award-winning 242-acre, mixed-use development in Frisco, Texas that is created with a new approach to urban design. It is among the first 5G connected communities in the nation to be constructed from the ground up, which enables the development to offer innovative amenities that increase convenience and productivity. Frisco Station is home to one of the world's first Skyports to support flying taxis, and last year completed a pilot project to test autonomous vehicles within the development. Located along

Frisco's highly desired North Platinum Corridor, Frisco Station features fully amenitized office, residential and medical uses, along with a planned retail and restaurant district. The project is being developed by the Frisco Station Partnership, which is composed of The Rudman Partnership, [Hillwood Properties](#) and [VanTrust Real Estate](#).

ADDUS HOMECARE HEADQUARTERS RELOCATES TO THE OFFICES TWO AT FRISCO STATION

FRISCO, Texas (March 3, 2020) –VanTrust Real Estate, office developer at Frisco Station, is adding new tenant [Addus HomeCare](#) to The Offices Two at Frisco Station, a 210,000-square-foot, Class A speculative office building. Located at the northwest quadrant of the Dallas North Tollway and Warren Parkway, the building is the second of five planned office buildings for the office district at [Frisco Station](#), a 242-acre mixed-use development.

“As a leading provider of home care, home health and hospice services, Addus needs an office that matches our rapid growth,” said Dirk Allison, president and CEO of Addus HomeCare. “The Offices Two will give us the ability to continue our growth across our markets.”

[Download images of The Offices Two at Frisco Station here.](#) Jpg labeled Feb. 2020 is a recent photo; others are renderings.

The relocation will expand Addus HomeCare’s office space from its existing 31,000-square-feet to almost 75,000-square feet. With more than double the space, the company hopes to add 50 more employees to its 146-person team in the next five years. The move from its current office in Frisco will take place later this fall.

“We are pleased to have such an important healthcare industry leader in North Texas choose to stay and expand in Frisco at The Offices Two,” said Chris McCluskey, vice president of development at VanTrust Real Estate. “Addus has provided more than 40 years of honest, accountable and compassionate service that will benefit our growing population immensely.”

Frisco Station is an innovative, entrepreneurial community with modern amenities, flexible workspaces and a vibrant climate that attracts creative and talented minds. The Offices Two at

Frisco Station is a mid-rise office tower with structured parking, a fitness center, conference center and tenant lounge. With Frisco Station being one of the first communities built from the ground up with 5G Evolution technology, The Offices Two gives its tenants access to robust communications and power infrastructure that includes dual-power feeds and multiple fiber optic option providers. Additionally, it is adjacent to the Dallas Cowboys' world headquarters and is within walking distance to more than 50 retail, restaurant and entertainment options between The Hub at Frisco Station, the development's upcoming entertainment district, and The Star.

"The Offices Two is designed with future-proofing in mind," said Peery Wood, senior vice president of CBRE's occupier advisory and transaction services in Dallas. "Tenants and their employees have access to groundbreaking technology that reduces latency and provides reliability like never before. Addus will be able to use this technology to grow extensively in the next few years."

With the addition of Addus HomeCare, The Offices Two at Frisco Station will have 52,000-square-feet of leasable space remaining. The next addition to Frisco Station's office district, The Offices Three at Frisco Station, is slated for completion in early 2021 and has begun pre-leasing.

About Frisco Station

[Frisco Station](#) is a globally recognized, award-winning 242-acre, mixed-use development in Frisco, Texas that is attracting the most innovative and talented minds in the country. By being one of the first communities in the U.S. built from the ground up with AT&T 5G Evolution, Frisco Station offers its tenants an unprecedented experience of next-generation convenience and productivity. Pioneering the future, Frisco Station is home to one of the world's first vertiports to support flying taxis, and last year completed Texas' first pilot project to test autonomous vehicles on public streets within the development. Located along Frisco's highly desired North Platinum Corridor, Frisco Station features fully amenitized office, residential and hotel properties, along with an upcoming retail and restaurant district. The project is being developed by the Frisco Station Partnership, which is composed of The Rudman Partnership, Hillwood and VanTrust Real Estate.

About VanTrust Real Estate, LLC

VanTrust Real Estate, LLC is a full-service real estate development company. The company acquires and develops real estate assets for the Van Tuyl family portfolio and offers a broad

range of real estate services, including acquisition, disposition, development, development services, and asset management. Product types include office, industrial, multifamily, retail, institutional, governmental, hospitality, and recreational. VanTrust works nationally with regional offices in Columbus, Dallas, Phoenix, and Jacksonville with its headquarters in Kansas City, Missouri.

About Addus HomeCare

Addus is a provider of home care services that include, primarily, personal care services that assist with activities of daily living, as well as hospice and home health services. Addus' consumers are primarily persons who, without these services, are at risk of hospitalization or institutionalization, such as the elderly, chronically ill and disabled. Addus' payor clients include federal, state and local governmental agencies, managed care organizations, commercial insurers and private individuals. Addus currently provides home care services to approximately 42,000 consumers through 186 locations across 26 states. For more information, please visit www.addus.com.

FORTUNE 500 COMPANY MAGELLAN HEALTH EXPANDS TO THE OFFICES TWO AT FRISCO STATION

FRISCO, Texas (April 29, 2020) –VanTrust Real Estate, office developer at Frisco Station, is adding Fortune 500 company [Magellan Health](#) to The Offices Two at Frisco Station, a 210,000-square-foot, Class A speculative office building. Located at the northwest quadrant of the Dallas North Tollway and Warren Parkway, the building is the second of five planned office buildings for the office district at [Frisco Station](#), a 242-acre mixed-use development.

Magellan Health, a leader in managing the fastest growing and most complex areas of healthcare, is leasing almost 8,000-square-feet of office space at The Offices Two. Currently employing more than 9,000 nationwide, the Frisco office is planned to open in late summer 2020.

“Magellan Health is a perfect fit for the growing healthcare services corporate community at Frisco Station,” said Chris McCluskey, vice president of development at VanTrust Real Estate. “With the addition of Magellan Health, we will have 83,000-square-feet of The Offices Two leased to healthcare innovators.”

Frisco Station is an entrepreneurial community with modern amenities, flexible workspaces and a vibrant climate that attracts creative and talented minds. The Offices Two at Frisco Station is a mid-rise office tower with structured parking, a fitness center, conference center and tenant lounge. With Frisco Station being one of the first communities built from the ground up with 5G Evolution technology, The Offices Two gives its tenants access to robust communications and power infrastructure that includes dual-power feeds and multiple fiber optic

option providers. Additionally, it is adjacent to the Dallas Cowboys' world headquarters and is within walking distance to more than 50 retail, restaurant and entertainment options at The Star.

"The Offices Two is designed with groundbreaking technology that reduces latency and provides increased reliability," said Craig Wilson, executive managing director with Cushman & Wakefield's Tenant Representation Practice Group in Dallas. "With that technology, The Offices Two will be able to substantially support Magellan Health's mission of delivering innovative and advanced ways of accessing better health."

With the addition of Magellan Health, The Offices Two at Frisco Station is 75% leased, with 44,000-square-foot of leasable space remaining. The next addition to Frisco Station's office district, The Offices Three at Frisco Station, is slated for completion in early 2021 and has begun pre-leasing.

FRISCO STATION PARTNERSHIP MAKES \$15,000 MATCHING DONATION TO LAUNCH FRISCO FASTPACS' SUMMER MEAL CHALLENGE

Funds received will support summer meal program for Frisco ISD students

FRISCO, Texas (June 2, 2020) –The Frisco Station Partnership, developer of Frisco Station and composed of Hillwood, The Rudman Partnership and VanTrust Real Estate, has partnered with Frisco Fastpacs and Frisco ISD (FISD) to launch the Frisco Fastpacs' Summer Meal Challenge sponsored by Frisco Station. The program will provide three meals a day, seven days a week throughout summer school, to students across all 72 FISD schools. To ensure the program's success, the Frisco Station Partnership will match all monetary donations made to Frisco Fastpacs, up to \$15,000, through the end of June.

"The current COVID-19 health and economic crisis has put an unforeseen financial burden on many communities and families all over the region," said Trey Sibley, general manager of The Rudman Partnership. "We've witnessed firsthand the need our Frisco community is facing and we hope that by matching every donation, we will ensure that students in need are taken care of all summer long."

Founded in 2013, Frisco Fastpacs regularly provides weekend meal packs during the school year to over 1,000 students enrolled in FISD. Each pack includes seven non-perishable, easily-prepared meals for children to eat over the weekend. During the COVID-19 pandemic,

Frisco Fastpacs has increased its number served to 1,607 students, distributing 42,227 meals to date. As the coronavirus crisis continues, Frisco Fastpacs has agreed to aid FISS in serving meals throughout the month of June, ensuring that families in need of packs will receive them after the regular school year, before the start of summer school and during the course of summer classes. “Our goal is to ensure that no child in Frisco has to endure hunger when school is not in session,” said Heather Canterbury, executive director of Frisco Fastpacs. “With the current pandemic, this goal has become increasingly difficult to reach as students are no longer in school, and food supply has seen a 300 percent increase in price. With the help of the partnership, Frisco Fastpacs will be able to provide a never-before-seen summer meal program for the children of Frisco.”

The meal program will provide an additional layer of assistance to students served by the Frisco ISD Child Nutrition Department, which is providing free breakfast and lunch for students five days a week during the month of June.

“Frisco ISD is grateful for the continued support of Frisco Fastpacs, which has stepped up in a big way for students facing food insecurity during this difficult time,” said Frisco ISD Superintendent of Schools Dr. Mike Waldrip. “We thank Frisco Station Partnership for their generosity and commitment to matching community donations to this worthwhile cause. “The consistency and continuity of this service is especially impactful for families who have been impacted financially by COVID-19. By putting more food on the table, the summer meal program will provide a daily source of nutrition and stability, alleviating some of the stress and worry many families are experiencing at this time.”
